Career Action Plan

Referral Checklist

SEED relies on your expertise in assessing the Career Action Plan. The CAP has to show us that clients are ready to take the steps needed to go back to their field or a similar or alternative field and need this loan. Please confirm the following before approving a client’s Career Action Plan (CAP):

Preparation
The client’s plan involves one of the following:

- entering the same occupation for which education was obtained prior to coming to Canada
- or a similar or alternative field
- or the plan involves completing the Assessment by their Regulatory Body

In addition,

- The client has a plan that can be completed in two years or less
- For Non-Regulated Professions: Accepted into a program of study. The client has applied to, and been accepted into, the course/program
- The client has identified a back-up plan in case their initial career and education plan proves not to be feasible
- The client has researched their chances of finding employment

Application Form

- All applicable sections of the CAP are complete
- The client’s CAP is in-line with their employment goals
- The client appears ready to undertake the proposed plan

Other Resources

- If the client is not a Training and Employment Services (TES) client, they have been referred to Training and Employment Services to determine eligibility for financial supports
- The client is referred to other financial support options for which they may be eligible (e.g. Student Aid)
